This item is printed on demand - Print on Demand Titel. - Seminar paper from the year 2002 in the subject Business economics - Didactics, Economic Pedagogy, printed single-sided, grade: 2.2 (B), University of Manchester (Manchester School of Management), 22 entries in the bibliography, language: English, abstract: At the beginning of any type of research, it is important for the researcher to determine the most appropriate methodology to carry out the study. The Dictionary of Sociology (1998) defines methodology as a the methods and general approach to empirical research of a particular discipline . It is implied that various methods exist to approach a particular research problem, and the researcher should give his or her own set of methods considerable thought. While factors such as time and costs certainly play an important part in deciding how to approach a particular research problem, the subject of the research itself should ultimately determine the methods used. A good researcher will evaluate all available options prior to making a decision as to which methods to adapt in the light of being the most useful for the study at hand.
