Strub, railway engineer (Interlaken), Professor Walder-Meyer (Zurich), Professor Weber (Zurich), Dr. Wrubel (Zurich), and President Guyer-Zeller. flORE ELECTRIC HOTORS FOR THE BROOKLYN BRIDGE. At the meeting of the bridge trustees on March 23 the plans for the introduction of electric power on the railroad were outlined in this report from Chief Engineer Martin, which was received and approved: Since the last meeting of the board I have conducted a series of observations upon the operation of the motor car in use, with the result that it lias been determined to use motors of 25 per cent, greater capacity than those on the present motor car and to somewhat differently arrange the electrical units in the power house and increase their capacity 20 per cent. With the...

## Reviews

*This composed ebook is wonderful. It really is writter in basic words rather than hard to understand. You may like the way the writer compose this pdf.* 

## -- Ryder Nolan

This book can be well worth a go through, and a lot better than other. It is writter in simple words and phrases and not confusing. Its been printed in an exceptionally simple way in fact it is merely right after i finished reading through this pdf by which basically changed me, modify the way i think.
